What Will You Do?
Equity in Action Workshop

“People Centered Decision-Making”
We must develop people who can... Transform Organizations... And help eliminate inequitable practices, and cultivate the gifts, talents and strengths of people! So that Success and Failure are not predicted on a person’s identity...racial, cultural, economic or any other social identity factor.
Only happens if we make it....

- You can make change as an individual, organization, and as community.
- You dismantle inequity in policies, practices, and organizational culture.
- Ask questions that inform your equity lens and change the work in action.
