Session Objectives

1. Understand **the factors that create barriers for students of color** and their college experience during and post pandemic. We will also **highlight the strengths and resilience** of our students as they adapted to multiple layers of change during the pandemic.
2. Understand the scope of higher education within a larger health crisis, systemic racism, and oppression, and how **powerful and impactful the academy can be** on families and community's quality of life through our work together as well as **the transformative nature of education**.
3. **Activate and have a sense of urgency around collaboration across campus** and in the surrounding community to provide access and resources within their sphere influence to students of color on campus. **We all have a responsibility in supporting, retaining, and graduating students.**

A photograph of a group of diverse children sitting at a desk in a classroom, focused on their computer screens. The children are of various ethnicities and are all looking intently at the monitors. The foreground shows a large computer monitor and keyboard. The background is slightly blurred, showing a globe and other classroom items. The overall atmosphere is one of concentration and learning.

Call to Action & Discussion

1. We all have a responsibility in supporting, retaining, and graduating students. What is your role on campus and how are you supporting students?
2. Are there other opportunities for collaboration for All-In Milwaukee and UW-Madison? How do we work together to support students?
3. What are some examples of collaborations you are already involved in on campus?
4. What conversations are you having around supporting students on campus post pandemic?
5. Are there specific initiatives your department has implemented as a result of the pandemic?
